

Terrestrial Biomes According to Temperature and Precipitation

- 1.) Which biome receives the most precipitation? \_\_\_\_\_
- 2.) Which biome receives the least precipitation? \_\_\_\_\_
- 3.) Which biome has the hottest temperature? \_\_\_\_\_
- 4.) Which biome receives the coldest temperature? \_\_\_\_\_
- 5.) Which biome has an annual temperature range from -5 to +5 °C? \_\_\_\_\_
- 6.) Which biome has an annual precipitation range from 10 to 125 cm? \_\_\_\_\_
- 7.) Which biome has an annual precipitation range from 160 to 340 cm? \_\_\_\_\_
- 8.) What is the maximum annual precipitation in the temperate rainforest? \_\_\_\_\_
- 9.) What is the minimum annual temperature in the temperate rainforest? \_\_\_\_\_
- 10.) What is the maximum annual temperature in the taiga? \_\_\_\_\_
- 11.) What is the minimum annual temperature in the taiga? \_\_\_\_\_
- 12.) What is the maximum average temperature of the savanna? \_\_\_\_\_
- 13.) What is the minimum average temperature of the temperate grassland? \_\_\_\_\_
- 14.) What is the maximum annual precipitation of the savanna? \_\_\_\_\_
- 15.) What is the minimum annual temperature of the deciduous forest? \_\_\_\_\_
- 16.) Which biome can get over 450cm of rain annually? \_\_\_\_\_
- 17.) Which biome has its lowest annual rainfall of about 60cm? \_\_\_\_\_
- 18.) What is the minimum annual temperature in the grassland? \_\_\_\_\_
- 19.) What is the minimum annual temperature in the tropical rainforest? \_\_\_\_\_
- 20.) Which biome has a maximum annual temp of 30 °C and a maximum annual precipitation of about 130cm? \_\_\_\_\_
