

Curriculum Overview:

Biology 2201 is an academic Pan-Canadian science course that aims to develop Scientific Literacy. Scientific Literacy is an evolving combination of the science related attitudes, skills, and knowledge students need to develop inquiry, problem-solving, and decision-making abilities; to become lifelong learners; and to maintain a sense of wonder about the world around them.

Course Sequence:

Unit (Guide)	Categories (PowerTeacher Pro)	# of classes (including evaluation)	Category Weighting (PowerTeacher Pro)
1	Ecosystem Interactions and Population Dynamics	22	16%
2	Processes that Sustain Life	25	24%
3	Maintaining Homeostasis	38	40%
	Enriched Summative Task	7.5	20%

Enriched Summative Task:

The enriched summative task is defined by two parts.

Part 1: Group

- Students are expected to work in different groups over five consecutive classes from Jan 16-20th on sets of short answer questions. This part of the evaluation will be worth 5% of the Enriched Summative Task

Part 2: Individual

- This section of the EST will be written between Jan 23-27th and will be worth 15%, this will be all short answer questions as well.
